June 1, 2007

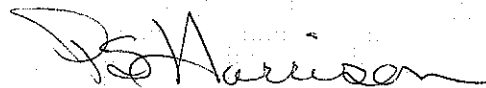

Dear Parent / Guardian:

In an effort to be more efficient in transporting our students, Radford City Schools will be making changes and additions to all of our school bus routes for the upcoming 2007-2008 school year. The changes will be made keeping both efficiency and student safety in mind.

Our middle school and high school routes will pick up and drop off students at corners along the posted routes. In most cases, we will no longer be making mid block stops. Please check the new schedules for the appropriate time and location for your child's bus by looking in the newspaper or on our web site at www.rcps.org. Routes will also be posted at the office of your child's school. These routes should be available for review in early August.

If you have any questions, please contact the transportation department at 540-731-3647.

Thank you,

Patricia S. Harrison
